Torotel Products receives Supplier Excellence Award

Olathe, KS (April. 25, 2011) – Torotel Products was recognized for its quality and performance by Raytheon Integrated Defense Systems. Torotel received a Supplier Excellence Award at a recognition ceremony held at the Wyndham hotel in Andover, Mass. on April 13, 2011.

Raytheon recognizes its suppliers based on three important factors: on-time delivery measures, sustained performance on quality and commitment to continuous process and quality improvement.

“Torotel provides a number of components on Raytheon systems that are vital to protect the brave men and women of the United States Military,” said Torotel’s CEO Herb Sizemore. “We are proud to be a part of advancing technologies that keep America safe. Our employees are grateful for the recognition from Raytheon for our efforts, and even prouder to be a part of such an important role.”

Torotel provided Raytheon and its contractors with over 15,000 custom magnetic components in 2010, with a delivery and performance record that was among the best for Raytheon.

Torotel Products is dedicated to working together to provide operational excellence. Since 1956 Torotel has provided custom magnetic components and electro-mechanical assemblies to Defense, Aerospace and Alternative Energy customers. The company employs 150 at its facilities in Olathe, Kansas
